

- **Levelmaster Direct Replacement for:**
- **Levelstate Systems Type 802 high pressure probe.**
- **Quest-Tec Solutions Type 820 high pressure probe.**

The LM802CP Levelmaster conductivity level probe is a high quality direct replacement probe designed to replace the Levelstate Systems Type 802 and the Quest-Tec Solutions Type 820 (a copy of the Levelstate Type 802 probe). Our probes all use tried, tested and reliable designs to ensure a long service life. All direct replacement level probes are of equal or better quality compared to the original manufacturers equipment.

The design and technology used in all our conductivity probes make them highly reliable and easy to use. Our specialist brazing and gilding process forms a very strong and proven joint between the high quality stainless steel components and zirconia insulator.

All Levelmaster probes feature a large thumb nut for ease of use when connecting probe cables. An anti vibration washer has also been incorporated to ensure a reliable probe cable connection.

All probes are Helium leak tested after manufacture, this ensures that each and every one is free from even the most minute flaws during the brazing process.

We only use high quality spiral wound stainless steel and graphite gaskets that are manufactured in the UK, or high quality stainless steel compression nuts, this ensures a strong and reliable seal every time.

TECHNICAL COMPARISON

MANUFACTURER	ELCONTROL	LEVELSTATE
Part Number	LM802CP	Type 802
Body Material	303 stainless steel	416 stainless steel
Insulator Material	Zirconia	Zirconia
Connection Method	15mm compression nut	15mm compression nut
Seal Type	Compression fit	Compression fit
Overall Length	71mm tip to seat	70mm tip to seat
Thread Length		
Tip Diameter	13.75mm	13.75mm
Cable Connection	Thumb nut with spring washer	Small knurled nuts
Temperature Rating	370 deg C	370 deg C
Pressure Rating	207 bar	207 bar
